

NDU

Project Management Platform

Platform Feature Guide

A clear overview of what's available on each platform —
Mobile (iOS & Android) and Web (Desktop & Tablet).

Version 1.0 | May 2026

Contents

- 1. Introduction — What this guide covers**
- 2. Platform Overview — How mobile and web work together**
- 3. Mobile App Features — iOS & Android capabilities**
- 4. Web App Features — Desktop & tablet capabilities**
- 5. Feature Comparison — Side-by-side at a glance**
- 6. Getting Started — How to access each platform**

1. Introduction

NDU is a comprehensive project management platform designed to support your team through every phase of the project lifecycle — from initial concept through to delivery and closure.

To give you the best experience, NDU is available across two platforms, each tailored to how you work:

- **Mobile App** (iOS & Android) — for staying connected and productive while on the move.
- **Web App** (Desktop & Tablet) — for in-depth planning, detailed reporting, and administrative tasks.

***Tip:** Both platforms connect to the same project data in real time. Updates made on your phone are instantly reflected on the web, and vice versa.*

This guide outlines exactly which features are available on each platform, so your team can make the most of NDU no matter where they are.

2. Platform Overview

NDU uses a **single codebase** approach, meaning both the mobile and web versions share the same core logic, security, and data. The difference is in the user experience — each platform presents features in a way that suits the device you're using.

Mobile App iOS & Android	Web App Desktop & Tablet
• On-the-go access • Quick updates & approvals • Push notifications • Camera & photo uploads • Streamlined interface • Works offline	• Full planning & design tools • Detailed reporting & analytics • Admin & user management • Complex document editing • Multi-window workflows • Large-screen data views

3. Mobile App Features

The NDU mobile app puts essential project management tools in your pocket. It's designed for speed and convenience when you're away from your desk.

Authentication & Onboarding

Secure access and guided setup

- **Sign In & Account Creation** — Log in with email/password or Google Sign-In
- **Biometric Login** — Face ID and fingerprint support for quick, secure access
- **Password Recovery** — Reset your password directly from the app
- **Guided Onboarding** — A three-step introduction for new users

Dashboard & Project Overview

Your projects at a glance

- **Mobile Dashboard** — See all your active projects, milestones, and progress
- **Program & Portfolio View** — Navigate program and portfolio levels with summary cards
- **Quick Stats** — Budget, schedule, and risk indicators at a glance
- **Project Switching** — Jump between projects without leaving the screen

Daily Project Operations

Stay on top of tasks and issues in the field

- **Progress Tracking** — Update task status and log progress on the go
- **Issue Logging** — Capture and escalate issues immediately with photos
- **Risk Flagging** — Identify and flag risks before they become problems
- **Change Requests** — Submit and review change requests
- **Meeting Notes** — Record action items and decisions during meetings
- **Milestone Check-ins** — Mark milestones complete and add notes

Team & Communication

Stay connected with your team

- **Team Directory** — View team members, roles, and contact information
- **Task Assignments** — Assign and reassign tasks to team members
- **Activity Feed** — See recent activity and updates across the project
- **Role & Responsibility Matrix** — Quick reference for who owns what

Documents & Files

Access and share project documents

- **Document Viewer** — Open and review project documents directly
- **Photo Uploads** — Attach photos from your camera to issues, tasks, or reports
- **File Sharing** — Share documents with team members
- **Document Review** — Approve or request changes on submitted documents

Notifications & Alerts

Never miss a critical update

- **Push Notifications** — Instant alerts for deadlines, approvals, and escalations
- **In-App Notification Centre** — A central place to review all your alerts
- **Configurable Preferences** — Choose which notifications matter most to you

AI Assistant (Mobile)

Intelligent help wherever you are

- **Quick AI Suggestions** — Get AI-powered recommendations for your project
- **Smart Notes** — AI-generated notes and summaries from your project data
- **Voice-to-Text Input** — Dictate notes and updates hands-free

4. Web App Features

The NDU web app provides the full suite of project management capabilities. It's optimised for larger screens and in-depth work sessions.

Everything in the Mobile App, Plus...

The web app includes all mobile features and more

The web app includes every feature listed in Section 3, along with the following additional capabilities that are designed for desktop and tablet use.

Front-End Planning Suite

Comprehensive 12-module planning workflow

- **Requirements Capture** — Detailed requirements documentation and traceability
- **Procurement Strategy** — Vendor evaluation, sourcing approach, and negotiation planning
- **Personnel & Organisation** — Organisational structure and staffing plans
- **Infrastructure Planning** — Facilities, equipment, and logistics
- **Technology Assessment** — Technology stack decisions and integration planning
- **Risk & Opportunity Analysis** — Detailed risk registers and mitigation plans
- **Security & Compliance** — Security requirements and compliance frameworks
- **Planning Workspace** — A unified workspace to navigate all planning modules
- **Planning Summary Reports** — Auto-generated reports from your planning data

Design & Technical Development

End-to-end design and engineering workflows

- **Design Initiation** — Define design scope, constraints, and approach
- **Detailed Design** — Comprehensive design specifications and documentation
- **Engineering Design** — Technical engineering plans and blueprints
- **Backend Design** — Architecture, database, and API design
- **UI/UX Design** — User interface and experience design workflows
- **Architecture Planning** — System architecture and integration diagrams
- **Technical Debt Management** — Track and address technical debt

Scheduling, Cost & Financial Management

Precise project financial control

- **CPM Scheduling** — Critical Path Method scheduling with Gantt-style views
- **Work Breakdown Structure (WBS)** — Hierarchical task decomposition
- **Cost Estimation** — Detailed bottom-up and top-down cost modelling
- **Budget Tracking** — Real-time budget vs. actual monitoring
- **Forecasting** — Predictive analytics for cost and schedule outcomes

Procurement & Contract Management

Full procurement and vendor lifecycle

- **Contract Drafting** — AI-assisted contract plan generation and editing
- **Vendor Management** — Vendor evaluation, comparison, and tracking
- **Contract Tracking** — Milestone-based contract monitoring
- **Contract Close-Out** — Formal contract completion and documentation
- **Procurement Workflow** — End-to-end procurement process management

Administration & Reporting

Manage users, subscriptions, and reporting

- **User Management** — Add, remove, and manage user accounts and permissions
- **Subscription Management** — Manage plans, billing, and access levels
- **Coupon Management** — Create and distribute promotional coupons
- **Executive Dashboard** — High-level portfolio and program analytics
- **Status Reports** — Comprehensive project status reporting
- **Lessons Learned** — Capture and share project learnings
- **Project Closure** — Formal project close-out workflows
- **Content Management** — Edit and manage platform content

Safety, Health & Environment (SSHER)

Comprehensive safety management

- **Safety Planning** — Develop and manage safety plans
- **Hazard Identification** — Systematic hazard assessment and controls
- **Incident Tracking** — Log, investigate, and resolve safety incidents
- **Compliance Monitoring** — Track regulatory and standards compliance

5. Feature Comparison

The table below provides a quick reference showing which features are available on each platform.

Mobile App (iOS & Android)	Web App (Desktop & Tablet)
Sign In, Sign Up & Password Recovery	All mobile features, plus:
Biometric Login (Face ID / Fingerprint)	
Mobile Dashboard with project cards	Full Dashboard Suite (project, program, portfolio, executive)
Progress Updates & status tracking	Front-End Planning Suite (12 modules)
Issue Logging with photo attachment	Design & Technical Development (7 modules)
Risk Flagging & quick escalation	CPM Scheduling & Gantt Views
Change Requests — submit and review	Work Breakdown Structure (WBS)
Meeting Notes & action items	Cost Estimation & Budget Tracking
Team Directory & role look-up	Contract Drafting & Management
Document Viewer & file access	Vendor Management
Camera Uploads — attach photos	Procurement Workflow
Push Notifications & alerts	Admin Dashboard — users, subscriptions, coupons
AI Quick Suggestions	Executive Reporting & Analytics
Voice-to-Text Input	SSHER Safety Management
	Project Closure Workflows
	Lessons Learned Documentation

Tip: Features marked as 'mobile' are also available on the web. Web-only features require a larger screen for the best experience.

6. Getting Started

Getting started with NDU is simple. Here's how to access each platform:

Mobile App

- 1 Download the NDU app from the Apple App Store (iOS) or Google Play Store (Android).
- 2 Open the app and complete the one-time onboarding.
- 3 Sign in with your credentials or create a new account.
- 4 You're ready to go! Your projects and data will sync automatically.

Web App

- 1 Open your browser and navigate to the NDU web address provided by your organisation.
- 2 Sign in with the same credentials you use on mobile.
- 3 All your projects, updates, and data will be waiting for you.
- 4 For the best experience, use a desktop or tablet with a screen size of 10 inches or larger.

Tip: Your account works across both platforms. There's no separate sign-up needed — use the same login everywhere.

Thank you for choosing NDU.

We're here to help your projects succeed — from concept to launch.

For support or questions, please contact your NDU account manager.
